

What You Didn't Know about Moving Pods

Packing and Moving is no easy task. In this day and age, almost everybody moves and that too at short notice. The compression of time also means that the hapless mover has lesser time to fend for himself at the new place. In come moving pods ... a concept devised to take away just these worries. They are mini truck sized containers which come in various sizes to suit the customers needs. Pods is an acronym for Portable On Demand Storage. Figuratively and practically since PODS encapsulate a popular concept of a Pod, they are increasingly being called as such. The growing popularity of Pods stems from their easy customization, flexibility of usage and the added advantage of enhanced storage facilities. Loading is not a hassle as the pods fit in a standard car park area and have low flooring. This way the customer does not obstruct his neighbors while moving and thus can shift luggage at leisure.

Moving pod companies also offer packing material at discount prices. Prepackaged, packing material are offered in various configuration depending upon the size of the house. A typical package consists of 20 Small Moving Boxes (18x14x12), 10 Medium Moving Boxes (20x20x15), 10 Large Moving Boxes (23x23x16), 100 yards of 2" Packing Tape, 80 feet of Bubble Wrap and two Permanent Markers. Structural robustness is ensured a super strong steel frame, marinated plywood walls with aluminum reinforcements to weather the worst storms and typhoons. The locking arrangements are very good and burglar proof. Customers can safely load partially one day one, lock up for the night and continue loading the next day without fear of being burgled. Environmental controls through air conditioning and dehumidifiers are also available in customized pods for items requiring such treatment. For those who just cannot do without knowing everything, companies provide instantaneous cargo location through incorporation of GPS tracking technology. The veritable Control Freak can track and trace his belongings all the way through the transit.

The Storage option is by far the most popular aspect of the Moving Pods service. Customers can now fill it and forget it till they find a new home. 24 hour security is provided at company warehouses. Latest in RFID technology ensures proper cataloguing and localization of items and pods in a warehouse. Does all this cost? Sure it does, but then the convenience, safety and time saving is worth the money, something a traditional trucking move can never hope to match. How to find these services? All you have to do is to type the magic words "[Moving pods](#)" and see a variety of choice unfold. Check for bargains, they are always there. You may well come out with a winner.
